COURSE OFFERINGS

Enhancing knowledge and effectiveness

Over many years TAS has worked closely with for purpose and not-for-profit organisations. Our experience shows that often representatives are experts in their field but may not have had any formal education regarding Board responsibilities and duties. The aim of the eLearning Academy is to provide the basics to help your team operate more effectively and with increased knowledge.

The courses support:

- > Fundamental tools and knowledge
- > Meaningful participation
- > Strategic focus
- > Legal and civic understanding
- > New skills
- > Role success

A path for a prosperous future

In a time when for purpose organisations face unique challenges, the eLearning Academy is a strategic tool to equip board members with knowledge and skills for successful governance and organisational growth.

TAS's commitment is to empower for purpose organisations and those who serve them for a prosperous and impactful future.

Six eLearning modules, each one taking approximately one hour to complete:

1. Governance Fundamentals:

Provides insights into various not-for-profit organisation structures and the obligations of directors in governing these organisations, focusing on mandatory responsibilities of all Board members.

2. Finance Fundamentals:

Designed for directors without a financial background, this course provides an understanding of and analysis of financial reporting enabling board members to fulfill their financial responsibilities effectively and "ask the right questions".

3. Risk Management:

Outlines the Boards responsibilities in developing and approving a risk management strategy. It equips Directors to make decisions in the best interest of the organisation's financial and operational performance, reputation, and sustainability.

4. Strategic Planning for Boards:

Equips board members with tools and knowledge for engaging in strategic discussions, setting organisational goals, and aligning decision-making with the for purpose organisations' mission and vision.

5. Effective Boards:

This course offers insights into different board structures, the skills required for effective board governance, and strategies for board leadership and accountability. It also addresses board performance and succession planning.

6. Investment Strategy for Boards:

Covers aspects of investment strategies, including understanding various investment options, assessing risks, constructing an investment policy, and managing and reviewing the plan regularly.
